

## **Table of Contents**

**Page**

### **Chapter 1**

#### **Introduction**

Introduction to Capital Products.....	1
Capital Logic .....	2
Getting Started.....	8
Launching Capital Applications.....	8

### **Chapter 2**

#### **Design Creation**

Creating Designs .....	12
Creating Diagrams .....	13
Placing Device Symbols .....	15
Add Wire .....	20
Report Generation .....	21
Design Rule Checks .....	21

### **Chapter 3**

#### **Capital Project**

Getting Started with Capital Project.....	22
Project Templates .....	24
Define Release Levels.....	26
Export Project .....	27
Naming Conventions .....	28
Advanced Naming .....	32
Project preferences and styles .....	35

### **Chapter 4**

#### **Advanced Devices**

Create a standard Device .....	36
Placing a Device with a Symbol.....	38
Auto Generation of connectors on Devices .....	39
Add Properties and Attributes.....	40
Add Library Parts .....	41
Design Wide Objects .....	45

### **Chapter 5**

#### **Advanced Wires**

Advanced Wires.....	47
Highways .....	48
Add Multicores .....	50
Backshells on Connectors .....	53
Poke Home Wires.....	55

## **Chapter 6**

### **Options**

Options Introduction.....	57
Assigning options to Designs.....	59
Filtered Configuration views .....	61
Option Combinations .....	62

## **Chapter 7**

### **Shared Components**

Shared Object Definitions .....	64
Shared component handling in Logic .....	65
Shared Objects in Capital Project.....	67
Placing a shared device on a design .....	69
Shared Objects and Revisions .....	70

## **Chapter 8**

### **Symbols**

Creating Symbols .....	78
Management of Symbol Libraries.....	83
Creating a Border .....	85
Adding Zones to a Border Symbol.....	87

## **Chapter 9**

### **Design Management**

Harness Attributes on Designs .....	90
Design Folders.....	91
Copying Designs.....	93
Design Revisions .....	95
Compare Designs .....	97
Build Lists.....	100

## **Chapter 10**

### **Design Validation**

Domains.....	102
Design Rules.....	103
Design Rule Checks (DRC) .....	104
Capital Logic and Rules.....	107
Printing Logic Diagrams.....	107
Analysis Introduction.....	108

## **Chapter 11**

Completion of a wiring diagram .....	109
--------------------------------------	-----

## **Chapter 12**

### **Logic Assist**

Logic Assist.....	110
Creating Filtered Diagrams with Autoview Assist .....	115
